

ConsentFlow measurement checklist

Use the website measurement playground to verify these GA4 enhanced-measurement events.

1. Load the page for **page_view**.
2. Use the SPA control for a history-based **page_view**.
3. Reach the bottom marker for **scroll**.
4. Open the external Analytics help link for **click**.
5. Submit a fixed search term for **view_search_results**.
6. Play the embedded YouTube video for **video_start**.
7. Download this checklist for **file_download**.
8. Use the fixed scenario form for **form_start** and **form_submit**.

Use only non-sensitive test choices. Confirm collection through browser requests before making any reporting claim.
